
INTRO TO SCIENCE REAL WORLD

SCI 102**Intro to Science Real World****4.0 UNITS**

This course introduces students to real-world problems and their solutions through the process of scientific inquiry. Students explore the relationship between science and everyday life. The instructor provides the research question, and students are responsible for the design, data collection, analysis, interpretation, and reporting of their investigations. To reinforce the concepts covered in lecture, laboratory classes include hands-on, inquiry-based laboratory investigations. Pre-requisite: Exit Basic Mathematics. Co-requisite: ENG-101.
